

CARIOCAS SPACE ODYSSEY NEMO POINT - Travel Press Release.

Can a beach party near Athens "fill you up" as much as a week of vacation somewhere in the Aegean?

In less than an hour and a half of driving from the centre of Athens through a picturesque route (we suggest you choose to take it without the tolls), you will find yourself in the otherworldly "musical village" that starts from the foothills of the beautiful Gerania mountains and literally touches the sea.

Schinos penetrates the southwestern side of the Gerania mountain range and spills over the waves of the Corinthian Gulf, the natural home of Mediterranean dolphins and the magnificent Halcyon birds.

Cariocas Beach Bar

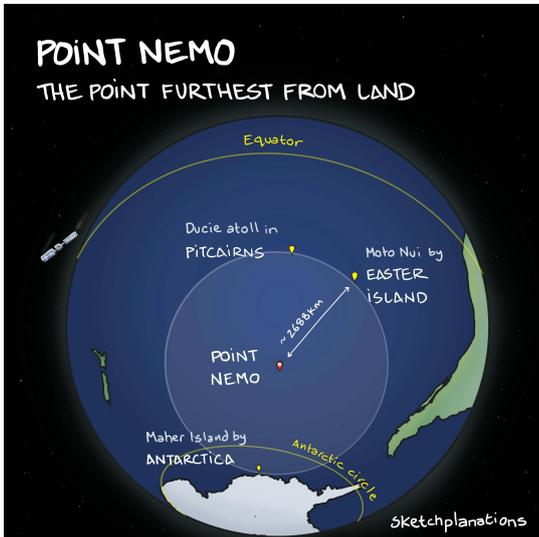

There, you will find Cariocas Beach Bar and [Space Odyssey Weekend Edition - The Nemo Point](#) waiting for you.

Cariocas is, in itself, a place you won't get bored exploring, revealing its hidden corners for you to relax, have fun, and fall in love!

Space Odyssey Weekend Edition (The Nemo Point)

For 48 hours, over the weekend of June 28 and 29, the wooden music ark that houses Cariocas will transform into a space capsule that will take us beyond time, destined for the otherworldly Nemo Point, the most remote point from the land of our planet.

You will hear famous Greek and international DJs playing music inspired by the festival's theme, aiming to take you on a journey to an undiscovered galaxy while you dance or swim with a view of the famous golden sunset of the Alkyonides islands.

A one-day escape from the city will fill you up as much as a week of vacation, and if you come for the weekend, then you switch gears and head straight to outer space!

The sunsets and sunrises in the bay of Schinos are from another planet, while the surrounding area boasts extraordinary natural landscapes that are perfect for exploring new worlds.

Beaches for all tastes and homemade food by the sea at neighbourhood-style prices will make you seriously consider taking a day off from work and staying on Monday as well.

Accommodation

For your accommodation, the [Airbnb](#) rentals and a fantastic [camping site](#) ensure you stay within a breath's distance from the festival.

As for the more adventurous, free camping is an option, as the locals have a warm welcome for conscientious and environmentally sensitive campers.

The mission

In a few days, on June 28 and 29, two music stages with international DJs in two different booth setups day and night will alternate for 48 hours, offering you the chance to discover your own Nemo Point and experience a unique event that will be among the highlights of this year's, and not just this year's, summer getaways from the city.

With tickets for the entire two-day event and single-day passes starting at [15 euros with full access](#) to all the stages and facilities of Cariocas, what else are you waiting for to launch yourself into the cosmic Schinos?

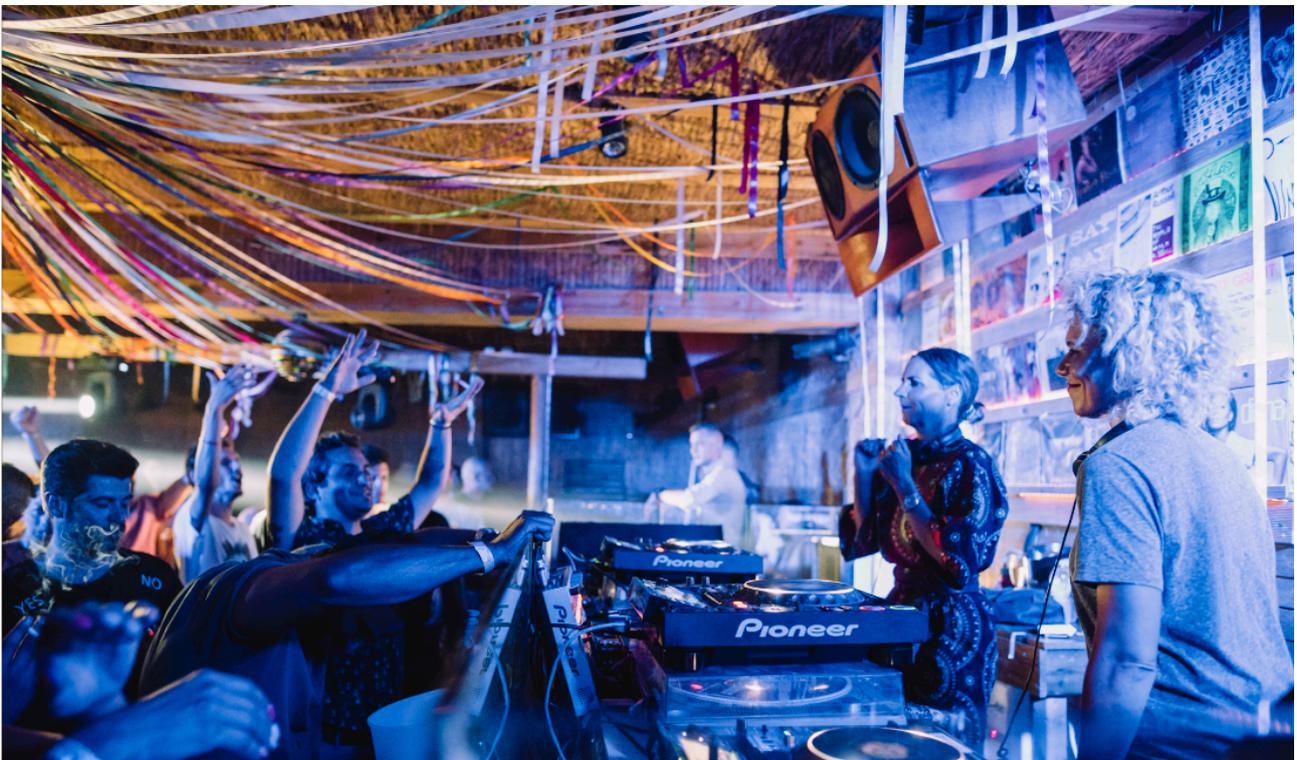

Tip (sunset stories)

Start early, ideally come from Friday. Choose the morning hours for your arrival and departure to enjoy the entire journey twice!

Whatever you do, don't miss the golden sunset from Cariocas beach.

It is a work from another world that literally has no words to describe it.

If you have come, you know; if not, ask those who have come. Or just be bold and dare it!

This is your summer.
